

Screening, Brief Intervention and Referral to Treatment (SBIRT) Online Training Readiness Form

Name:

Email Address:

Telephone Number:

Clinic / Program Name:

Brief Clinic Program Description (patient population, services provided, and types of healthcare team members):

Does your clinic provide co-located behavioral health services?

To what degree does your clinic / program, currently engage in the following?

	Never	A little bit	Sometimes	A lot	Almost always
Screening for unhealthy alcohol or substance use					
Applying specific decision rules regarding the clinical response to screening results					
Prevention interventions for those without unhealthy use					
Brief intervention for those with risky alcohol or drug use					
Referral to treatment for those with alcohol or substance use disorders					
Delivering medication assisted treatment (MAT) / medication for opioid use disorder (MOUD)					

What types of SBIRT implementation support would you be interested in learning more about (check all that apply):

- Telephone call from CASAT to explore implementation and training options
- Written materials
- Online videos or trainings
- Informational trainings or webinars delivered to my clinic / program to increase SBIRT knowledge (1-4 hours)
- Skills-based trainings or webinars delivered for my clinic or program to improve SBIRT practice (4-16 hours)
- Participation in an SBIRT Project ECHO Series (6-part interdisciplinary, case based sessions with expert specialists and other Nevada-based OB GYN and women’s health professionals)
- SBIRT observation, coding, and coaching for those involved in delivering SBIRT
- A training for trainers in which 1 or more representatives of your programs engage in intensive training to learn to train others and support SBIRT implementation
