SUMMIT PURPOSE

To bring together organizations and individuals to identify ways to strengthen behavioral health interventions and systems, and divert people with behavioral health challenges away from the justice system.

Summit Objectives

Participants will:

- Gain a better understanding of the current state of behavioral health in Washoe County for individuals involved with the justice system
- Receive an update on the Sequential Intercept Model (SIM) and how the Strategic Framework can be applied to strengthen behavioral health interventions in our community
- Learn about current best practices and strategies that support the reduction of justice involvement of individuals with behavioral health challenges
- Continue to network and build relationships across diverse systems and agencies
