

# Registration Now Open

Virtual Summit dates: April 23-24, 2026

## The TeleBehavioral Health Summit

**Artificial Intelligence (AI) in Behavioral Health:  
Promise. Practice. Responsibility.**

AI and digital innovation are already transforming health care. Please join us for this free, two-day virtual summit focused on the burgeoning role of AI and digital innovation in behavioral health care.

Building on the Behavioral Health Institute's TeleBehavioral Health Training Series, this Summit brings together national experts, clinicians, policymakers, and thought leaders to examine how AI is reshaping behavioral health practice and how to engage effectively.

Practical, frontline-focused education will explore what's here and what's on the horizon in an increasingly technology-enabled care environment:

- Foundational understanding of AI in behavioral health
- Real-world clinical risks, benefits and safety
- Practical strategies for responsible integration
- Legal, ethical, and regulatory considerations
- Emerging new technologies
- AI literacy for clinicians
- Strategies to support patient safety, equity, and clinical judgment

Whether you're a clinician, peer professional, administrator, or system leader — the Summit is your opportunity to:

- Stay ahead of rapid technological change
- Gain practical knowledge you can utilize immediately
- Network with forward-thinking professionals
- Help shape the ethical future of AI in mental health

**Behavioral health is at a turning point. The question isn't whether AI will reshape the field — it's how we can lead that transformation.**

### Acknowledgements

The TeleBehavioral Health Summit is a collaborative effort between the Behavioral Health Institute at Harborview Medical Center/UW Medicine, and the Northwest Regional Telehealth Resource Center (NRTRC). This event is generously sponsored by the Washington State Legislature.

### Continuing Education

Credit Offered: *AMA PRA Category 1 Credit™*; Nursing contact hours; Interprofessional Continuing Education (IPCE).

Full accreditation information can be found at <https://bhinstitute.uw.edu/accreditation>.
